

MY HOME

My home is an apartment that is on the 4th floor. It has two bedrooms , a small hall , a large living room and a large kitchen with a small balcony.

Although it is better to live in a house by yourself , without anyone bothering you, I like to live in an apartment but sometimes neighbours bother you.

This is my house and I like it.

But my house is my school , my city , my country etc.

With my own room, for sure.
