- Good organization;

- The Estonian organization was interesting.

- Personally, I found Roosi school in Põlva unique. Happy the people whose government invests so plentifully in the welfare of every one of its citizens, according to their needs. Every detail in Roosi school speaks about responsibility, care and love. Obviously, the school had been prepared to look its best in view of the project meeting; but there are gestures, face expressions, routines, which cannot be "put on", and which showed highly the deep commitment of all the staff involved.

- I think that Roosi School it is a special school for the education of students with serious disabilities. The Estonian organization showed a great care, respect and great responsibility towards others.

- They were interesting and motivating;
- Yes, I did;
- Yes, I liked, because I made bread and butter.

- I think all activities helped us to discover Estonian culture. Even a walk in the street can become an act of cultural knowledge. I could form an idea about the past and present of the Estonian family, for instance, at the Museum of Agriculture; about the Estonian concern for music and artistic life in general – in Viljandi; about the importance shown by Estonians to healthy eating – the many small restaurants and shops selling home-made products; their cult for nature – the endless forests, the wild ducks and pigeons wandering at ease so close to humans. These are just a few aspects that come to my mind. And the AHHA Science Centre, that brought to surface, from the very first moment, the child hidden in every one of us! How I wish I could take my students for a visit there...

Suggestions for the host partners in the future:

- 1) In case of long bus transfer (>1 hour), consider the possibility of a short stop.
- 2) I liked everything the way it was. And I am convinced that our partners - by crossing the experience of organizing the recent meeting – will find ways to become even better for their next similar activities!
- 3) One regret, though: I wish we had seen more of Tartu! But, as that was not the scope of our project, I nurture the hope of going back as a tourist, some day...
- 4) Whenever possible not to leave the hotel before 9.00 am
