

BERNARDÍ TOLRÀ SCHOOL (CATALONIA-SPAIN)
LESSON PLAN THE CLIMATE CHANGE CYCLE

GRADE	6th grade
TIME DURATION	90 minutes
UNIT	CLIMATE CHANGE
TOPIC	THE CLIMATE CHANGE CYCLE
GOALS	Learn about the concept of cycle. See that the effects of climate change are a cycle.
VALUES & FUNCTIONS	Rethink about the sentence «Matter is neither created nor destroyed».
METHODS & TECHNIQUES	Key vocabulary Writing Recording a video
MATERIALS	Video, the previous lesson about «Causes & effects»
WARM-UP	Rethink about what they did at the lesson «Causes & effects»
DURING THE LESSON	They watch their presentation about causes and effects. In groups, they try to engage causes with effects. They write a sentence where they can see that each cause is the previous effect. The teacher shows the sentence «Matter is neither created nor destroyed» and the students talk about it.
EVALUATION	Evaluation rubric.
