

BERNARDÍ TOLRÀ SCHOOL (CATALONIA-SPAIN)  
 LESSON PLAN CAUSES & EFFECTS CLIMATE CHANGE

GRADE	6th grade
TIME DURATION	90 minutes
UNIT	CLIMATE CHANGE
TOPIC	CAUSES & EFFECTS
GOALS	Think questions about environment using data research and analysing results. Rethink the present from the analysis of the changes during the time. Analyse landscapes and ecosystems.
VALUES & FUNCTIONS	Value social problems thinking about causes and consequences.
METHODS & TECHNIQUES	Analysis of images. Key vocabulary. Writing.
MATERIALS	Photos, internet articles, videos about climate change.
WARM-UP	Video about climate emergency (from TV3 channel)
DURING THE LESSON	Students have some images and they have to classify if they are causes or consequences of climate change. They define each image with a word related to climate change. They write the relation of the image and the climate change. Then we recorded a video.
EVALUATION	Evaluation rubric.
