

Lesson Plan 1: SDGs and Climate Action

Lesson Plan and Activities

Grade: 7th

Topic: SDGs and climate action

Goals: Learn about each other's personal experience knowledge and feelings concerning climate change,
Rise the level of knowledge about climate change
Develop English as a foreign language
Improve students' digital skills
Learn new vocabulary

Methods and techniques: Internet search, guided debate

Materials: Videos, climate change related search sheets, tablets and Internet, board.

Activities:

Students watch short videos showing why climate change education is important to shape sustainable development and how it works in practice. The videos can be seen on a large screen, or on tablets

<https://youtu.be/ITpHgTh66tY>

https://youtu.be/OasbYWF4_S8

<https://youtu.be/oROsbaxWH0M>

After a short guided individual search on given Internet resources, the teacher leads the group discussion and reflection on the stories they have encountered with a simple questionnaire and takes notes of significant answers on the board.

Assignment

To end the lesson students quickly summarize their feelings about climate change, and what as a class they could do about it.
