5. For the development of the next project meeting(s), what could you suggest?

11 responses

The same!

If the meeting lasts for 5 days, then make in the middle of the week one day shorter. Too much new information, intense timetable and long days are tiring.

I suggest students hard working the project

Everything is carefully planned so I Have nothing ti say .

It was an efficient meeting, maybe every country can inform the host country about their opions about planning
