POEMS FROM SLOVAKIA

Our Earth

Our Earth is our home,
we don't live here alone.
There are many forests and seas,
our Earth has special needs.
Don't let it die,
Everybody asks: "Why?"
There are plastics, glass and paper,
we can't say: "We'll do that
later."
Now it's time to make it clean,
Do you know what I mean?

Recycling is important
Everybody can do that.
Cleaning waters, air and land,
You learn about environment.
'Cause we are the part of green team,
Learning about recycling.
Earth is the only one!

Nature's song

Can you hear that?
Can you feel?
The sound of nature,
this song is lovely.
Stay calm in the forest or park,
the song of nature - the wind plays the
harp.
The birds take the tune
and the little bugs play music too.

Be green

The grass is green
the sky is blue
the air is fresh.
but is that true?

We need the Earth
please, look after it.

be ready to do what we need

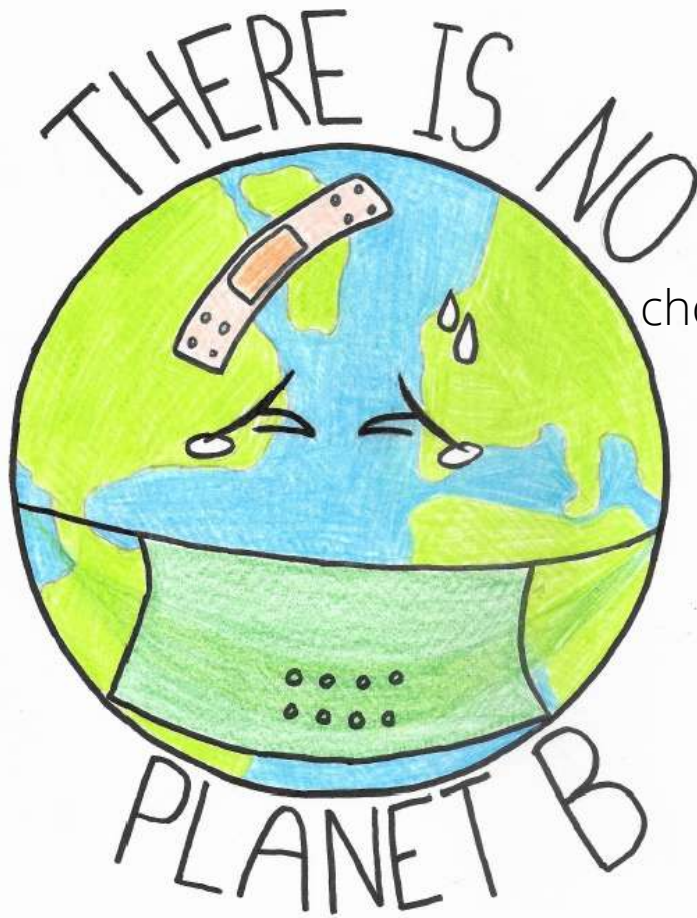

Recycle and reduce,

choose the things that can be reused.

Don't take the Earth for granted

We have just this planet

So love it!

What if...?

What if all the trees are gone?

What if the bees loose flowers to sit on?

What if the waters become poisonous
and the fish and sea life disappears?

What if the birds will not be seen in the sky?

What if the air is bad for you and I?

What then????

Liesy, rieky zima niet,
Konečne sa zobud', svet!

Namiesto hôr sú tu smeti,
Hoc kačiek lietadlo letí.

Rastliny už nerastú,

.....

Veľa zvierat je chránených,
No aj pytliakov trafených.

Vrece so sebou zober,
Smetí kopec ja na výber.

Larisa Mikušková 5.a

RECYCLE

RECYKLOVANIE

Recyklujem ako nič,
všetko pekne pretriedim.
Smeti sám vynesiem
a tam ich aj pretriedim.
Radšej všetko pretriediť
ako všetko vyhodiť
a našu Zem týmto zachrániť.

Stanislav Rapant 4. B

Zemeguľa maličká

Zemeguľa zelená, spadla večer do blata.

Tam ľudia zlí boli a riadne ju zničili.

Teraz sa za to hanbia a ukazujú ústa.

Robia pre ňu hocičo, pre to malé bábätko.

Už je už je hned' lepšie, ale stále škaredšie.

Gregor Sedliak, 4. B

RECYKLOVANIE

Recyklujem, recyklujem,
prírodu tým ochraňujem.

Šaty malé podarujem.

Všetko dobre pretriedim,
do prírody nehodím.

Sklo, papier aj plasty,
viem, kam všetko patrí.

Zuzana Dorotová, 4. B

RECYKLUJ

Papier, plasty, sklo a kovy
keď zrecykluješ, budeš mať papier nový.

Keď to dáš do normálneho koša,
planéta sa znečistí troška.

Lukáš Cagáň, 4. B

POEMS FROM ITALY

The world
The world is life
our job is to defend it
recycling we will be
able to hel him!

Recycle
Recycling
Safe your papers
Save your bottles
Save yourcans
Throw them in the bin,
if we all pitch in!

We recycle all
We must separate the things!
Glass,paper,plastic,tin
and we put them in the bins!

Dobbiamo differenziare perchè è importante....e
serve all'ambiente!

Riciclare è importante perchè soprattutto per non inquinare

La differenziata vuol dire dividere la spazzatura la plastica con la plastica la carta con la carta....

Il riciclo serve per l'ambiente

Riciclare è importante per proteggere il mondo....

Il riciclo è un bene per la natura, dobbiamo rispettare, dobbiamo mettere la spazzatura nei cassonetti, la plastica con la plastica, la carta con la carta...et voilà tutto al suo posto!

La differenziata è utile per tutto il pianeta, perchè se non esistesse il mondo sarebbe inquinato...
Ricicla :carta ,plastica,umido,vetro , lattine...
Facciamolo per il nostro Pianeta!
Salviamo il nostro Pianeta!!!!!!

L'ambiente va rispettato, non può essere rovinato. Tutti si devono impegnare e stare attenti a non inquinare! Dividi i rifiuti per tipologia prima di buttarli via: ricordati che non devi mescolare tutte le cose da buttare. Se l'ambiente rispetterai un mondo migliore avrai!

POEMS FROM TURKEY

Let's Recycle

Don't throw away paper and plastic,
Instead collect, reuse and recycle.

Let the trees be alive,
Keep the nature cleaner.

Be a savior

So as to protect the World,
So as to protect the nature,
So as to protect our future,
Come on kids!! It is up to you.

Seperate plastic , paper and glass
For recycling and reusing.

Do a favor for your homeland and the World,
Say No to pollution of the nature!!

Ebru Saritaş
Fatih Primary School

Let's recycle
Both paper and plastic!
Don't fling our future
Destroying the forests!

İsmail Tuna Karakaş

Recycle

Reunite together,

Ever after and forever.

Come for a brighter future,

You'd better look at the chirpy rivers ..

Come on! Turn back and the kids will feel great!

Live through the tales and do not ask about how the future will be

Enlightening the future with a blossom of happiness!

Ahsen Bayrakçı

Let it be

Come and take me to the past,
To polish the universe through love.

Let it be a fresh and cosy life,
Going with the flow.

Recycling advantages are countless,

Our life will be longer

Plastic, paper or glass

Can never threaten our nature,

Now is the time to recycle!!

Energy will be produced out of waste materials,

Let the nature be happy!

Let everyone cherish!

If you don't our world will be polluted.
And this can be the end of us.

Recycle,

Give it a chance to live,

If you ask why,

Our world is our mother.

To survive we need it,

Don't underestimate my words,

Be careful and R-E-C-Y-C-L-E

Korumak için

Dünyayı korumak için,
Çevreyi korumak için,
Geleceği korumak için,
Haydi çocuklar siz seçin,
Plastiği kağıdı camı ayır,
Ülkeni ve dünyayı kayır,
Çevreyi kirletmeye hayır.

Mutlu Ol

Gel birlikte olalım,
Er yada geç gel,
Renkli bir gelecek için,
Irmaklara bak cıvı cıvı.

Dön arkana çocuklara iyi gelecek
Öykülerde yaşa,
Nasıl bir gelecek diye sorma,
Üçlüler açmış,
Şenlenmiş ortam
Üzülme geleceğin için,
Mutlu ol neşeli ol

*Feyza Özdemir

Geri Dönüşüm

Gel döndür beni geriye,
Evreni temizleyelim sevgiyle,
Rahat sağlıklı bir yaşam olsun,
İçimiz rahat olsun.

Dönüşümün faydaları saymakla bitmez,
Ömrünü uzatırız sevgiyle doğamızın,
Ne plastik ne kağıt ne de cam,
Üzülme sen varken zehirlemez doğayı,
Şimdi geri dönüşüm zamanı,
Üretilsin artık mazzemelerden enerji,
Mutlu olsun doğamız, mutlu olsun çevremiz.

*Yusuf Bozkurt
Fatih İlkokulu*

Dönüşüm

Ölmesin doğa,
Gitmesin çöpe kağıtlar,
Yorulmazsın yaparken,
Ayırmaktır tek gereken.

Kağıt plastik cam ve pil,
Bunları ayırmak gerekir,
Değerlendir sakın atma,
Elbet katkısı olur sana.

Sende Dönüştür

Geri dönüşüme katkısın,
Dünyamızı kirletme,
Dünya kirli olursa,
Hayat bize zor olur.

Önce israf etme ürünlerini,
Azalt fazladan harcanan malzelerini
Sende dönüştür atık ürünleri,
Sen de katkı sun, hep beraber geri dönüşüm.

POEMS FROM SPAIN

We recicle what we use,
separate things and you
should too,
glass and paper,
plastic tin,
go in your recicle bin,
we must start now,
we can´ t wait,
quick ,
or it be too late.

Reduce Reuse Recycle, please.
So future generations can enjoy
our vibrant seas.

Take drift wood and
turn in into furniture.
And it will help the Earth,
call it a cure.

Out of cans make beautiful art.
Help the world come on, take part!!!

THE EARTH

Recycling is like writing.
We can do it well or bad,
Don't use a lot of gel
Because it comes from the Australia hearth,
And we have to take care
We can to recycle all but not the Earth,
Oh no we cut a
lot of trees
We have only to cut on month three,
We have to use less water
We have to take solution another,
Bye bye is the end but not for the Earth

First cycle children know
what recycling is
And that is why everyone wants
to take care of the environment
At their home and in their classes
separate paper and cardboard
form plastics,
Containers and glass alike

COME ON EVERYBODY!

Come on everybody,
Let's recycle,
Instead of a car
Use a bicycle

Come on everybody,
Let's recycle,
Instead of cans
Use glass

Come on everybody,
Let's recycle,
If we all do our part
It's a good start!
Be smart
And do your part

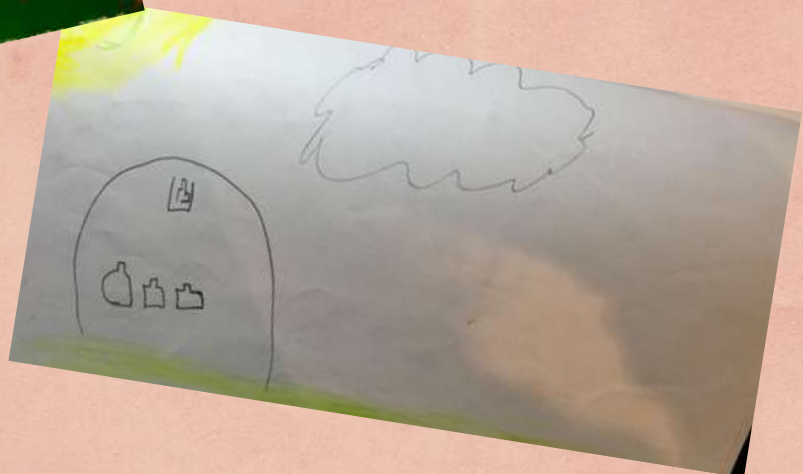

Gure planeta zaintzeko asmoz
has gaitezen gu etxetik,
bero guztia joan ez dadin
leiho edota atetik

Guk bainatzeko ohitura dugu
lau edo bost egunetan
ohitua hori oso ongi dago
egin dezagun dutxetan

Hirietako aire guztia
dago oso kutsatuta
garraio publikoa erabili
kotxea aparkatuta

Barbakoako txorixo ederra
zuk prestatu nahi baduzu
leku hortatik joaterakoan
urez itzali ezazu

Lurra planeta garbi egoteko
da guzti-guztion lana,
eta gazteok zainketa honetan
ez dugu oso ona fama

POEMS FROM LITHUANIA

Our Earth

After trash hits the ground,
 We don't even understand what happens
 Our Earth has to work really hard,
 To get rid of each piece.
 While protecting the Earth-
 We're protecting ourselves,
 If we won't-

The dinosaurs will come back...
 Goda Šinkūnaitė, 3rd class alfa

Mūsų Žemė

Numetus šiukšlę ant asfalto,
 Nė nesuvokiam kas nutinka.
 Mūs Žemė sunkiai dirbti turi,
 Kad panaikintų šiukšlę vieną.
 Saugodami Žemę – saugom ir save,
 Nes jei mes Žemės netausosim,
 Vėl dinozaurai atkeliaus...
 Goda Šinkūnaitė, 3 alfa klasė

No Littering

If you outgrew your clothes,
Give them to others.

If you have empty bottles,
Go out and recycle them together.

If you have a lot of ideas,
Figure out how to save the nature.

Aidas, Rytis, Mykolas, 3rd class alfa

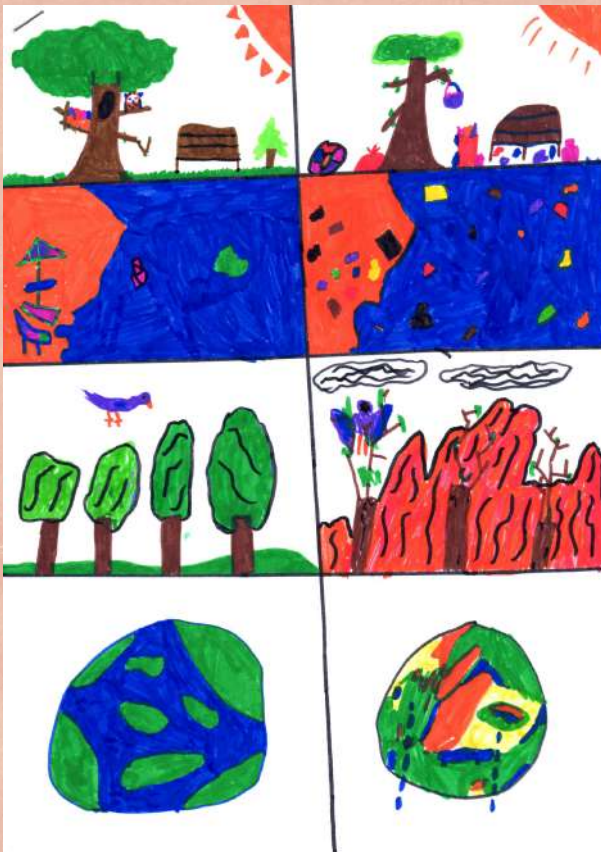

Neteršimas

Jei išaugai drabužius,
Atiduok tu juos kitiems.

Jei turi tu butelių,
Eik ir perdirbk juos kartu.

Jei turi tu daug proto,
Sugalvok kaip saugot gamtą.
Aidas, Rytis, Mykolas, 3 alfa klasė

No Trash in The Sea

Sun is shining,
Summer's coming.
You won't enjoy the swimming,
If the Sea is dirty.
*Goda Navickaitė, Mantas Lopeta,
3rd class alfa*

Nešiukšlinti jūros

Saulė šviečia danguje,
Jau ateina vasara.
Bet maudytis bus nesmagu,
Nes jūroje bus nešvaru.
*Goda Navickaitė, Mantas Lopeta,

There's Only One Earth!

It may be hard to recycle,
But it's easy living.

We're all surrounded by the same nature,
7 continents and 5 oceans.

The Earth is crying,
When we litter.

Stop littering the Earth, so that she wouldn't cry,
and we could live in peace.

Mantvydas ir Uosis, 3rd class alfa

Mums Žemė viena!

Rūšiuoti gal yra sunku,
Bet gyventi lengva.
Mus visus sieja gamta,
7 žemynai ir 5 vandenynai.

Žemė verkia,
Kai mes šiukšliname ją.
Nešiukšlinkime Žemės, kad ji neverktų,
O mes gyventume gražiai.

Mantvydas ir Uosis, 3 alfa klasė

No littering in the forrests

The children came to the forrest,
And started to litter.

The grass no longer grows,
The animals eats trash.

Stop all the littering,
There won't be any forrests left!

Stop all the littering,
The trees won't be green no more!
Vilius Balčiauskas, 3rd class alfa

Nešiukšlinkite miškuose

Atėjo į mišką vaikai
Ir pradėjo jie šiukšlint.
Žolė nebeauga,
Gyvūnai pradėjo valgyt šiukšles.

Baikite šiukšlinti,
Nes Žemėje miškų nebeliks!

Baikite šiukšlinti,
Nes miškai nebebus žali.
Vilius Balčiauskas, 3 alfa klasė

POEMS FROM LATVIA

OUR EARTH.

I like recycling
Creative making.
I have new things,
That give me wings.

I have fun
To go and run.
If the Earth is clean,
All can begin.

Why world?

Why world.

Why?

Why everything in plastic?
In the store for free,
To ruin nature and water.

You look so beautiful,
But we are ruining you,
We are trying and trying,
But nothing is helping.

Eduards Tūters 4e

Give a second life!

Be resourceful and reusable
Paper and cardboard, paper packaging!

Build towers, castles, draw and cut,

Create new paper and products!

Get creative – reuse PET bottles

Used in making jewellery, key chains,

Decorations, greeting cards!

If you act wisely and creatively,

The life of things is eternal.

We will use less natural resources, electricity,

We will be happier on the planet!

Paula Laicāne 4.e

Plastic is made from oil,
Which disappears just in 300 years.
It stacks at the bottom of the ocean
And prevents whales.

Sea inhabitants swim,
Between plastic and bags.

Try it yourself,
It is not a joy.

So, let's try to
Make the sea cleaner!

Reinis Svarāns 4.e

Sort waste to make our planet more beautiful, cleaner!

Throw paper in the yellow container –
newspapers, books, rinsed juice and milk packs!
Place a clean glass package in a green container,
But not mirrors, lamp bulbs and window panes!

In a blue container –

PET bottles, which are recycled by JSC "Baltia"!
Be creative and educated – other things are reused,
Make your own paper, new lamps and costumes
Make decorations for different events.

Give the things a second chance,
Treat your planet responsibly!

Bahmane Dz. 4.e

Kad atrodi tu papīru,
Izmet viņu kārtīgi.

Jautrāk tīrīt mums,
Jo daba tīra būs.

Nemet atkritumus dabā,
Labāk sašķiro tos maisā.

Ja mēs visu šķirosim,
Zeme mums tad pateiksies.

Meži tiek mēsloti dienām ilgi
Cilvēki nedomā par dzīvnieku dzīvi.

Okeānā atkritumu salas
Vaļiem nav dzīves vaļas.

Ilgi, ilgi saudzēsim,
Ilgi, ilgi dzīvosim.

Zālīte, lai zaļa,

Dzīvīte, lai laba.

Jābūt sirdī apziņai,

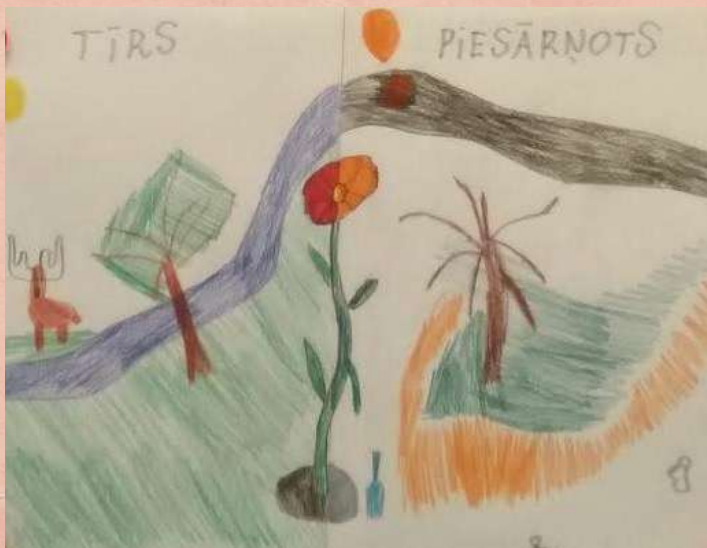

Ir jājūt dzīvē jēgu.

Jāšķiro mums visiem kopā,
Dabūsīm dabas vērtības dotās.

M. Rīcis; M. Vaiskovičš; M. Auns 4.b

Mūsu Latvijā ir skaista daba
Man patīk tur dzīvot.
Ja visi darīs labu,
Būs tīri un skaisti.
Ne kādu atkritumu šeit!
Latvija būs tīra valsts.
Saudzēsim mūsu valsti!

Liene Dāboliņa 4.e

Mums vajag šo zemi.

Mums zeme liela, liela,
Ūdens, krasti ezeri.
Saule spoži spīd,
Un apkārt netīrība mīt.

Ziedi vairs neaug,
Ezeri vairs nebūs tīri.
Mums vajag šo zemi nosargāt,
Ejam, to aizstāvēt!

Lauma Līva Saklaure 4.c

Saudzēsim zemi – dzīvosim labi.
Aiz sevis savāksim – vieglāk būs.
Lai par dabu rūpētos,
Tas mums visiem jānācās.

Jābūt atbildīgiem visiem,
Jāsajūt šis labums sirdī.
Jāiemācās atkritumus šķirot.
Šķirošanas konteinerus lietot.

Dzīvot zaļi, elpot brīvi
Dabu nepiesārņot lieki.

Driķīte Elīna 4.b.
