When I was a child, many of little girls I knew imagined to be a popular popsinger, dancer, princess or fairy. Their parents were going with them to the dance studios where they could feel like a star. But after some time girls get bored and their parents started to look for new activities for their children.

My adventure with ballet started when I was 4. At the beginning I trained in the dance studio. Then I went to the Warsaw Ballet School. Now I'm in the ballet academy. When I was a little girl my dream was to be a professional ballet dancer. Now I know it is possible, because I work hard every day on my body and physic.

# What will my work consist of?

---

The explanation of work „vet” is very simple, you help animals. But my job won't be exactly the same as being as a normal vet. I'm going to establish a shelter for horses. I will be a kind of horse psychologist. There are a few therapies, which help to cure various horses' fears diseases.

## Where did the idea for the horse shelter come from?

The idea for horse shelter came from my favourite series of books. The name of the books is „Heartland” and it tells about a young girl called Amy and her mom - Marion Fleming. They’re living in the hills of south Virginia. Heartland is the place where bad treated animals learn to trust people again. All of the therapies came from this book and actually my idea is just a copy of Heartland, but I’m proud that this is what I want to do in my life.
