

One mobile case should be enough to protect a mobile phone. However many of us buy more than one case spending unnecessary money.

In the image we can see the excess of technology among people. These use of technology is causing addiction a serious danger to the environment. All this electronic scrap, of which only 21% is recycled.

Visiting a city implies being surrounded by stores that prompt us to buy unnecessarily (postcards, pins, t-shirts, keychains..)

sometimes, preparing a cake full of sugar a colors can be excessive... we should prepare and buy food thinking in our health and not our eyes.
