

Dobble

Dobble, it's different symbols equally distributed, on card with one and only one identical symbol between each cards.

Presentations in the colleges of Pertuis

Here, there are 10 symbols, 5 cards and 1 symbol in common between each card.
It's not perfect.

Meeting with the researcher of INRIA Sophia Antipolis

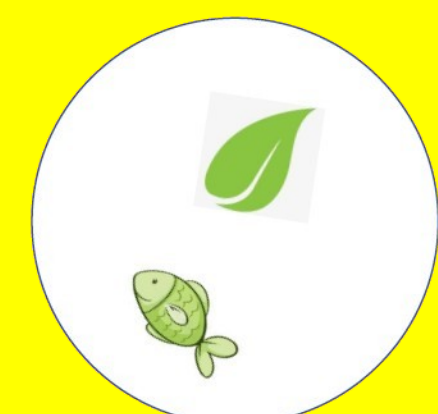

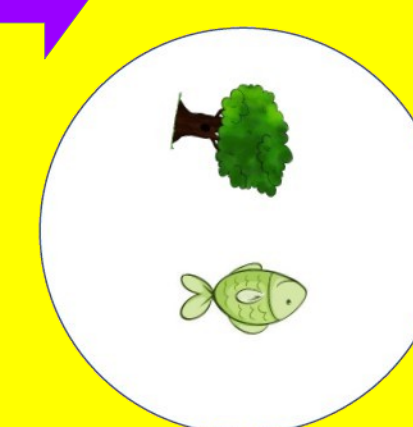

**A game is « perfect » when it includes as many symbols as cards.
We can't add other cards or symbols.**

Exchanges during the ERASMUS mobility in Ales

This is the original game.
It's sold with 55 cards instead of 57.

Number of cards	Number of symbols per cards
3	2
7	3
13	4
21	5
31	6
43	7
57	8
73	9
91	10

Exposition in amphitheatre during the Avignon Congress
