

beebot challenge

2

forward

backward

left turn

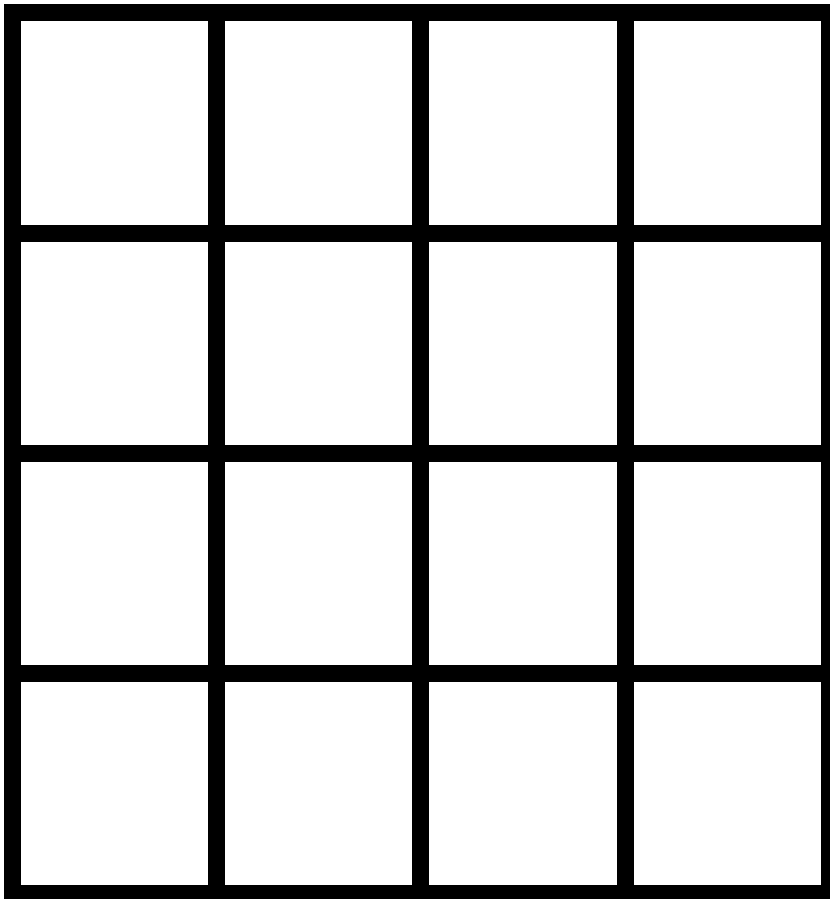

right turn

Follow the **instructions** and **draw** the **shape** to be created. You should think carefully which the start square will be, so the **beebot** does not come out of the mat. Finally, tick the square "start" and the square "end".

 forward	 forward	 right turn	 forward	 forward	 right turn
 forward	 forward	 right turn	 forward	 forward	 go

Shape:

Can you make the **same shape** with **different instructions**?

forward

backward

left turn

right turn

Mark the **instructions** that **beebot** should follow in the next cells.
