

Hi!! I am Natalia from 2° of E.S.O of the San Vicente de Paúl school.

I'm going to tell you how I spent this time of quarantine, what were my hobbies, what feelings I had ...

At first I was bored a lot, I didn't know what to play at, I was reluctant. But after a few days I was cheerful. I danced with my sister, we made challenges, I played board games with my parents, we recorded tiktoks ...

As we could not go out on the street, or visit relatives, I made video calls with my cousins, my grandparents, friends ...

At the end of May they let us go out, I went to an esplanade next to my house, in the afternoons I went out to walk with my aunt and my cousins.

The truth is that going out into the street made me feel more relieved.

After this time, October arrived, there began to be more infections so they put a curfew. Until today this decision has not affected me. I hope you are doing very well and that you have not had so bad this quarantine. goodbye!!
