

EVALUATION BY STUDENTS

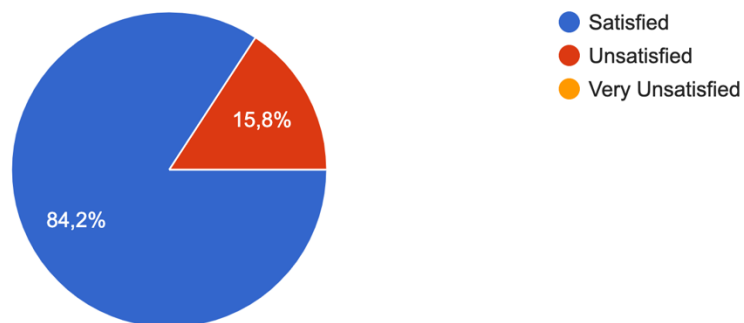

1. How satisfied are you after your experience with the short-term VIRTUAL exchange?

19 risposte

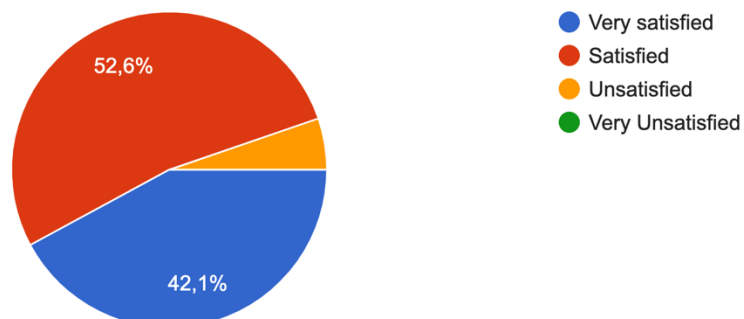

2. How satisfied are you with the organization and management of the exchange?

19 risposte

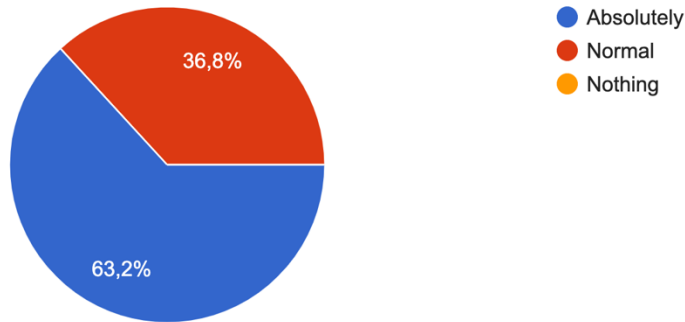

3. How satisfied are you with the planned activities?

19 risposte

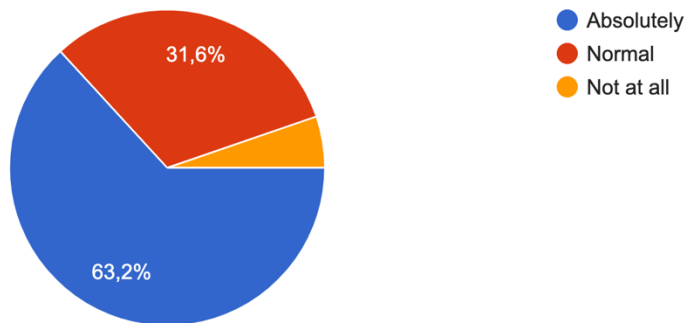

5. Do you consider the exchange an enriching experience culturally speaking?

19 risposte

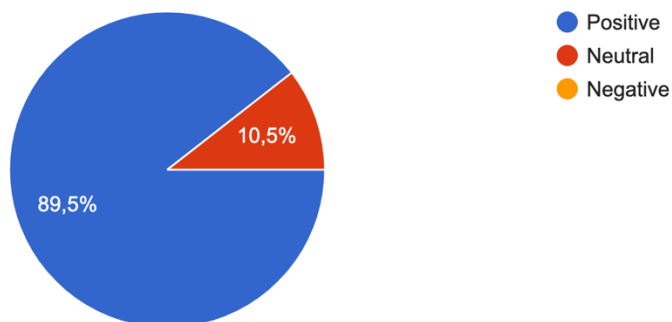

6. Did you improve your communication skills in English?

19 risposte

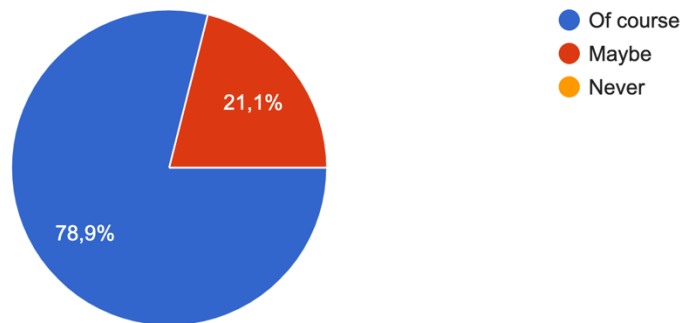

7. How would you assess the experience?

19 risposte

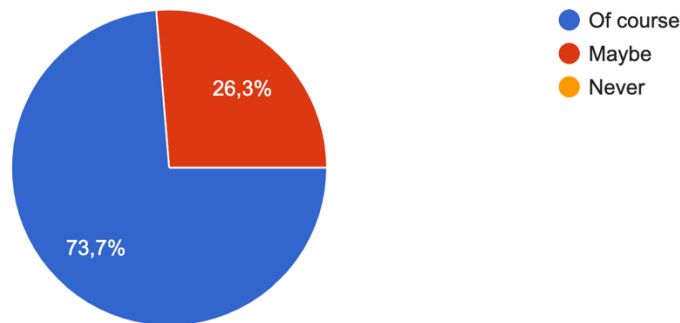

8. Would you take part in a similar experience in the future?

19 risposte

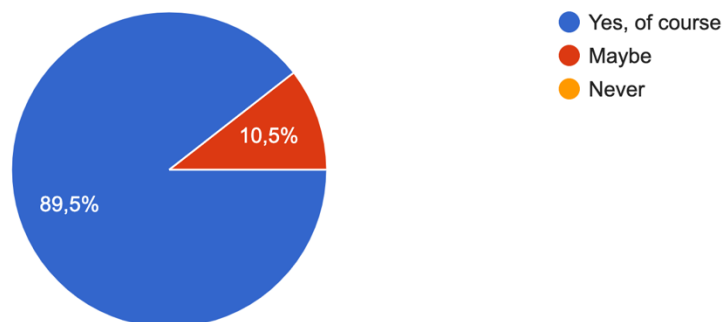

9. Would you recommend the experience to other students?

19 risposte

10. Would you take part in another similar activity or international exchange in the future?

19 risposte

11. We would like, if possible, to repeat the experience again in the future. What do you think we should change, add or delete from the program? (flights, visits, timetables, workshops and activities, food, etc...). (*) Please write down your ideas here

Nothing

I wish there were more interactive games like kahoot

Maybe we should improve the organisation of the project

i liked everything! but the fact that whas in videocall make it a little bit bad

I think that the students would fly to the other country for a beautiful experience

I don't have any ideas To say

Everything was okay but from my point of view there was some disorganization as there were no teachers in some games, so this was why my group and I couldn't play. That whole week was amazing, I really enjoyed it, thank you for the opportunity

everything has been fine

If I could improve something, it would be the organization among the teachers because we had many problems regarding this fact.

In my opinion, if we could go to another country, we would be satisfied with the activities

Be more fluid between countries and activities

Well, it would have been better to have been in person because in the video call you could cut off or not be heard because of the noise. But for everything else I think it has been quite good for the situation we are going through.

Do the usual mobility, visiting countries, exchanging experiences

for me it was better to travel, get to know other countries, other people because online is a different experience but I liked the same

I just think, here in Portugal, we were more used to use zoom to do the virtual meetings, so it was a little bit difficult for us to understand how to use the google meetings. The rest was very good for me.

delete COVID-19

It's hard to say because it was online and I don't think that any of my suggestions would be applicable in a non virtual mobility

idk, i wouldnt be here
