DAY CELEBRATION

Association Internationale du Film d'Animation created the International Animation Day in 2002, honoring the birth of animation, recognized as the first public performance of projected moving images: Emile Reynaud's Theatre Optique in Paris, on the 28th October 1892.

The selection of animation films includes an impressive range of approaches, techniques and goals. Created by drawing, painting, animating puppets and objects, using clay, sand, paper and computer, working with multiple narratives and non-narratives, reflecting a diversity of themes and performances, presented on a variety of platforms. This visual storytelling medium, can communicate and contribute the diffusion of animation films, of different authors from our partner's countries.

FILM PROGRAM

This film selection intends to make known and celebrated independent filmmakers from our partner countries.
