

Erasmus + project „Busy Bee”

We learn how to recycle the waste

Ginkūnai Sofija and Vladimiras
Zubovai school

First of all, we watch movies about the recycling. Then we tried to do it practically.

Erasmus+

We visited a company „Toksika“ to know where harmful waste are disposed.

Erasmus+

We visited a research lab where many researches and tests are performed to know the amount of toxic materials. We saw small ovens and other scientific stuff as well.

A journey towards a big incinerator.

Children learnt that all burnt trash heat houses and towns.

Children created many great works of waste with the help of parents online. This let them know that all waste can be reused.
