

## REAL Bridge

Something happened on this bridge, a long time ago Prince Henry was murdered on the first day of Autumn in 1873 by his own brother.

A long time ago, the two brothers had already argued because both wanted to be the king. To punish the murder, the king and the queen did not let him to be king and gave the kingdom to their nephew. And this way Prince John became a King. To prove that he was grateful he had a bridge built!
