

Mystery

Hot balloons are an amazing form of seeing the views from some places that you want to visit. It is a very interesting experience and now I am going to tell my story. One day I went on holidays, I was in Italy with my family so we decided to travel in a hot balloon. From the hot balloon we could see the ocean and it was beautiful. It was a very sunny day so we saw everything, the sky was blue and very clean, we saw the houses near the beach.

I have no words to describe the feeling of travelling in a hot balloon because it is like you are totally free. Nevertheless, this beautiful **mystery** will always remain for those who don't accept this challenge.
