

My Impressions on the Mobility in Romania

My name is Mircea Ioan Surpățeanu and I am one of the members of the Romanian Erasmus+ team of pupils within the project “Ecological Literacy”, in which my high school is involved. I am very grateful to this project coordinator, Mrs. Gabriela Mirela Jugar, for choosing me in this team, trust me, care of me.

Together my parents, I was the host of two guest pupils. One of them was from Čakovec, Croatia and his name is Vito Jambrosic. He was accompanied in this mobility by his coordinator, Mrs. Ivana Ružić. The other boy hosted by me and my family was from Paphos, Cyprus and his name is Fillipos Giapanis. He was accompanied in this mobility by his coordinator, Mr. Demetris Symeonides.

This week spent by us together, between 8th and 14th October 2017, was a very beautiful one. We have learned a lot of things about ecology by means of the documentary visits and the workshops carried out in school. Besides, we had fun, played and spent wonderful afternoons in family. It was a pleasure for me and my family to host these wonderful children, with whom we keep in touch as a close friendship linked. We would love to participate in other similar projects.
