

Essay on What Impressed Me and My Guest in the Mobility from Romania

I was the host of a Cypriot pupil and he was, in his turn, my host. I felt wonderful to have a boy of different nationality. It was a wonderful experience and at first a little strange until we were able to accommodate each other. In Cyprus it is much more different than in Romania, starting from people to the country itself. People were very sociable and friendly, and in the same time in the spirit of nature. Unlike Cyprus, where the climate is really very hot, being a southern country, it has been more difficult for him to adapt to our climate. It was a little cold but that didn't disturb him very much.

The scenery of the mountains delighted him very much, especially when they were covered by snow, a fact which is indeed rarely found in Cyprus. Our hiking seemed great to him, seeing a city and a country much different to his own. He was also delighted with our pastry products, the pancakes being among his preferences. He also liked the areas around Sibiu City. The visit to Albota together my family in one afternoon delighted him in spite of the cold that was left. The trip to the stall together the whole team seemed very interesting to him, mainly because he hasn't ever been in a place like this one.

What I can say about myself is that I felt very good with him. We had fun, and I hope we are able to see each other again. We continue to communicate and to keep in touch on e-mail. For my parents, this mobility also represented an exciting experience. The communication between my parents and his was very good. In conclusion, it was a beautiful, exciting experience, and we hope to have one as it is in the future.
