***ERASMUS PLUS K229. V.A.N. (VIAJAR AMPLIA NACIONES) PROJECT:***

**LIST OF THE MUSEUMS AND ARTISTIC PLACES VISITED BY EACH PARTNER SCHOOL  
TO PREPARE ARTISTIC WORKSHOP OF PUPILS**

## LIST OF THE MUSEUMS AND ARTISTIC PLACES VISITED BY EACH PARTNER SCHOOL TO PREPARE ARTISTIC WORKSHOP OF PUPILS

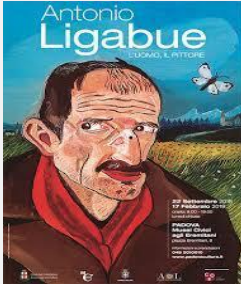

- The list of European museums and artists is important in our Erasmus Plus V.A.N. because it allows everyone (pupils, parents, teachers, local authorities) to fully understand the long emotional and artistic journey carried out by the children of the six primary schools involved in the project.
- The teachers took the children to visit the museums and chose the works of an artist who, according to the pupils' sensitivity, significantly expressed one of the five basic emotions studied: happiness, sadness, fear, anger and disgust.
- This virtual journey, but also concrete in the Museum Corners created in each school, has allowed the different classes and numerous children / teenagers to discover a broad artistic sensitivity and a broad cultural horizon in our Europe, aimed at expressing basic emotions.
- Getting to know new artists and their stories and works has opened the minds of our students to numerous fields of expression, towards which they will be able to direct their creativity in the future.
- The artistic work carried out in the classes in the three-year period of the Erasmus Plus V.A.N. it was huge, I would like to say bigger ...
- Thanks to this challenging project, our children / teenagers have grown a lot, both in the knowledge of basic emotions and in the consequent better behavior, and in the knowledge of local artists and their emotional sensitivity, but also in the creative ability to take inspiration from the environment or from a work of art to express their feelings.
- An invitation is addressed to parents, to teachers of other classes and schools, to local administrators, to the public who will read these pages, it's to visit the museums indicated by the six schools.
- It will be for everyone a very curious and innovative discovery of how artists who have expressed themselves with such different styles, materials, times and places, have reached such significant artistic heights.
