

SPANISH MOBILITY

WHAT I LEARNED?

I learnt a lot of things about the plants especially about the *Ruscus hypophyllum*. During the day, we planted this endangered plant to reintroduce it in a protected park. Moreover, we visited lots of museums about animals and plants.

WHAT I DID?

In Spain, we did some museums like the Honey museum of Lumbai, the botanic garden of Valencia, the aquarium of Valencia... We had a walk in the forest, it was when we planted the *Ruscus*. Also, the first day we visited the high school and we ate a typical paella of Valencia made by the teacher of the high school. It was delicious! Moreover, we went to the Fallas, a traditional Spanish festival. It was a very good experience. And I did a little interview in Spanish for the local television.

WHAT I LIKED?

During this trip I loved to visit the city, the museum and the garden. Also I met lots of new friends and it was fun to try to talk with them. It was difficult but very educational to speak another language than French during one week.

And it was very interesting for me because I will go to Finland during one year, on my year of 12th grade.
