

Getting to Know You Bingo

Bingo

1. Provide time for students to get to know their class mates by completing a Bingo Sheet with a Characteristic or Experience in each Box. The Bingo sheet can be adapted to meet the characteristics of any group.
2. Students introduce themselves to classmates and ask if they have the characteristic or have had an experience noted in the Bingo Box.
3. If the student asked about the characteristic answers yes, then the classmate writes their name in the box and moves on to meet another classmate.
4. Students continue until all of the boxes are complete for a row, column, diagonal or 4 corners.
5. When a student has one of the above complete they shout out Bingo.
6. The instructor goes and confirms the answers, so that all students in the class learn about the students in the winning row.
7. This can be continued until the Bingo Boards are blacked out.
1. This activity can be adapted to meet the time constraints of the class.

A person who traveled to another continent	A person who considers him/herself a gourmet cook	A person younger than 25 years old	A person who went "south of the border" during the past 12 months
