

Knowing me – knowing you

Tallinna Rõõmupesa Lasteaed

June 2016

Erasmus+

- New thinking
- Learning, growing and advancing as a teacher

WHAT WE DID?

- Curriculum and action plans were more associated to the project themes
- Action plan was practical, based on experiences
- Themes were integrated with different subjects
- Themes were not left in general, they were dealt with in more detail

A lot to take over

- Remarkable groupwork
- Writing! Excellent work!
- Using iPad and smart board in the classroom
- teaching and real life, nature at school – don't you have allergic pupils ?
- Acknowledgments assemblies
- „We don't study books, we learn correlations“
– Headteacher

A lot to take over

- Getting acquainted with partner's culture, symbols, sightseeings
- Flexible curriculums
- Themes had been very specifically captured and presented excitingly in the forms of posters.

Thank you for your attention!
