

History

This world famous porcelain factory was established on the 1st of September 1969 in Lubiana. Since then, despite many changes in our country, the factory still grows, gives people work and offers wonderful products to its customers.

The mission

The main content of the company's strategy is its mission. It includes:

- offering their customers the best porcelain in the world
- creating their employees a safe and good working conditions

Lubiana today

„LUBIANA” S.A. is a modern manufacturer of porcelain tableware, offering products at European level since 1969.

„LUBIANA” S.A. specialises in the production of white, hard porcelain with high quality parameters. The factory produces more than 1,500 assortments in several styles.

Many years of experience on foreign markets, promotes the development of the export of our products, currently for 39 countries. The production is carried out using the world’s latest devices, such as isostatic presses, injection molding equipment and mechanical glazing, energy saving kilns by Riedhammer and Grün and kilns for burning decoration.

This factory is a place of work for 1464 employees.
