

# AS Standard

## About the company

AS Standard is the leading furniture manufacturer in the Baltic States. It was founded in Estonia. The enterprise has existed since 1944.

The company has two primary business directions: StandardPro offers hotel and public space furnishing solutions; StandardOffice focuses on offices and interior design.

The greatest strength and advantage of Standard over many other interior design companies is that we offer complete solutions, from initial consultations to the handover of the completed project. When you choose Standard as your partner, you receive everything you need to furnish your premises from one convenient source.

Each project is dealt with at Standard by a professional project manager supported by a team of experienced specialists.

Furniture is designed and produced in accordance with the client's wishes and maintaining the product's original and distinctive features. Standard offers a wide range of ready-made office furniture solutions that you can view on our website and in the product catalogue.

All of Standard's furniture is manufactured at our own production facilities using modern and environmentally friendly technologies and high-quality materials.

Standard also offers delivery and installation as additional services. The result is always a stylish and most comfortable room. Standard has decades of experience in provision of furnishing solutions and the company has expanded into all regions of the world. Our activities have earned deserved recognition and we have completed many large projects not just in the Baltic States but in Finland, Sweden, Germany, the Netherlands and Russia as well.

## Quality and environment

Standard operates in an environmentally-friendly manner: the carefully controlled production processes and the modern and ecologically efficient technologies facilitate achievement of the best results.

Standard's furniture is characterised by a combination of thorough design and high quality. Our furniture solutions are derived exclusively from the wishes and needs of our clients.

They are a responsible company: they sort their waste and recycle packaging, consume green energy and use as partners only such suppliers that are as reliable and caring about the environment as they are.

Standard developed and implemented an integrated quality and environmental management system that has been certified in accordance with the requirements of the international ISO 9001 and ISO 14001 standards.
