

Flea markets

Fyris Park

In Stenhausen we have an indoor market called Fyris park.

Every Sunday between 12-15 you can rent a table and sell things like berries you picked in the forest, things you baked or maybe stuff that you don't use any more. People sell books, clothes and kitchen stuff. It is very cheap. A table costs 20 euros.

Sometimes there are a lot of sellers and sometimes not, like 50 maybe.

When it's hot outside (like may-september) the market is outdoors instead. Then you sell from your car.

The market place is also used as big hall room where seniors dance some nights every week.

Ulva Kvarn

In Ulva Kvarn there is a market outdoors from spring to autumn every Sunday. It's on a field. You put your car in a space and you bring table where you put your things. You can sell whatever you want. Some people sell like tomato plants and some sell toys and cloths and other things. A space costs 15 euros.

You can also pick strawberries there.
