## ***My travel dreams:***

One of my child travel dreams came true this year, I always wanted to see a real palm tree in its natural habitat and I wanted to swim in the ocean. These dreams come true and I also learned surfing and I love it, I always really liked swimming and generally all water sports. As I have already mentioned, I fulfilled them in the Canary Islands where I was with my sister and she taught me how to surf. In the future, I'd like to travel to the USA for an exchange and visit every continent (maybe without Antarctica).
