

We're so lucky to have you Biodiversity

Decorate our world plant and animal species,
The richness and diversity of these species,
Togetherness consisting of Ecology,
Biodiversity is a part of life.

Creatures in air, in land and in sea,
The differences among them,
These are great riches,
Biodiversity is the relationship between livings.

Necessary for the continuation of our lives,
Field, medicine, tourism and industry,
Wealth for each sector,
Biodiversity provides them all.

It holds the balance of the ecosystem,
It makes our universe more livable,
Necessity for human and environmental health,
All the information is biodiversity.

All the world's wealth,
The guarantee of our future,
Development for communities,
Must be protected biodiversity.
