

People are deeper than the Labels

Greek Part

Its everyday bro with no label on
tell me about your life to tell you about mine

let's not put a label on it,let's keep it fun,
don't put a label on it so that we can run free

do we look like fruits,to have labeles?

I'm only human after all,dont put the label on me

People are all the same
so it's a pitty and shame
when we put labels on
so how we turn this off?

Color,genre or religion don't matter to me,
give me your hand,
take my heart,
there's no any better place I could be.

Be what you want to see,
Not what others want to see

Nobody should learn to categorize
Just put the label on the table not on people

Clap along if you feel that we can change the world

Clap along if you feel that we shouldn't label anymore

Clap along if you feel like that's what you wanna do

wake up those who sleep
we have nothing bad to keep
colour, religion and genre are all one here
be the voice that others should hear!
