Thank you very much for accepting me as a member of the working group. From Spain, together with my friend Juan Antonio, we will give everything from us, in order to enrich ourselves with you, and above all, to instruct our students in the New Technologies, and in collaboration with other colleagues in Europe.

Very grateful, Manuel José Vázquez Feria.

For doing the activity about introducing values of democracy with photos, we have chosen Padlet. Here you have all my pupils' contributions to this fantastic activity. In the most of cases they decided to choose a free photo from the Internet, others decided to make their own pictures using well known web apps such as Poster My Wall. They wrote a reflection explaining their election and a translation in English will be offered in the official blog of the project. We hope you ... [Ver más](#)

We did the project evaluation yesterday in an online class. The experience was very positive for all of us. It's a new situation and technologies help us a lot. We hope you like it. Their reflections are very necessary for the improvement of the project. During the day I will upload the video to TwinSpace and the blog of the project. I wish you a happy Thursday!

Dear colleagues: For flaming sentences about Children's rights I have created this worksheet. Feel free for using with your pupils. You only have to download and edit. This material will be upload to our TwinSpace.

## The Power of Democracy at Schools

Dear pupils: Teachers of the eTwinning Project want you to design with **flaming letters** sentences about Children's Rights. We are going to use this app: [Flaming text](#).

In online class you will learn how to use it. Your flaming texts will be insert on this Padlet: <https://padlet.com/jarinconc01/4mxpmjv7ubys7wnm> It is very important to write your name and surnames in the post. Take inspiration in my flaming sentence.

Teacher Juan Antonio

I start this beautiful Padlet with the flaming name of our fantastic eTwinning Project. I hope you like it. Next my post you will insert your flaming texts.

I have also created a Padlet where pupils will insert their productions. When all the sentences are together will be very easy to download them and make the book proposed by **Elçin Ceyhan**. If you like you can use it because it is open to public participation.

Today my students have received a surprise in their mails that we are sure will please them. It is their eTwinning certificates for having participated in the Project "The Power of Democracy at Schools".

It has been a year of intense learning and this is one way to congratulate them. They have learned a lot about democratic values and their friendship with their colleagues in Bulgaria, Italy and Turkey will last forever.

We'll be friends forever **April 2020**

Today we have held our second and last activity of the Project "The Power of Democracy at Schools". It has been an online session because all the countries participating are in the same conditions with COVID19. We follow at home in a collaborative way we have done an acrostic poem. I am very happy to know students and teachers. The experience has been very positive and we hope to do new projects in the future. We will be friends forever!

This is the evaluation report with our children's answers. For me the most important part is the qualitative evaluation because it gives us many clues that we can incorporate in future eTwinning projects in search of quality and improvement of this type of projects.

<https://docs.google.com/document/d/e/2PACX-1vSN0N62Hagy3lkG0c9yzdFv926HZ3l8qGw5BxohvnNCNrmXFKNrWSDNbfMs9REIeB8QXZGuIAFmU9Qw/pub>
