

## Effects on leisure

- Limited amount of people in places like amusement parks and waterparks
- Certain places are opening and closing depending on the situation

## Effects in media consumption

- -Tik Tok has risen to be the most popular social media during this pandemic
- -News are all about the pandemic
- -People are staying inside more, so they also happen to use more media

## Effects in a casual life

- -Gathering has been limited to 50 people
- -Many possible jobs that are possible to do remotely have been transferred to remote work like software engineering
- -Masks are highly suggested to use in public indoor facilities (including schools) and public transportation
- -Being slightly sick means that you stay home from school
- -Excessive usage of hand sanitizer
- -Social distancing recommended

## Things that have stayed the same

- People are keeping the same amount of distance from each other outdoors (which is a lot)
- They still exercise outside and walk their dogs
- They still go to their cottages
- Shopping hasn't changed much
