Onnentassu's workers rescue street animals and animals who don't have home

Toys for cats

This will be a climbing tree for the abandoned cats in Onnentassu Animal Shelter.

Our volunteer work with elderly people is important because many old people don't have relatives and they feel lonely.

We have done a Christmas card for every senior in the Senior House Attendo.

At Christmas we performed Epiphany Singers for the elderly people at Attendo Senior house.

Senior House Attendo

Senior house Attendo is a home for very old people who can't survive alone at home. They need help given by the senior house nurses.

Seniorhouse ATTENDO

What is that? Attendo is a seniorhouse for old people who can't stay at home alone. Then they can go to this place where they are taken care of.

Onnentassu

there are animals that are found in the street.

Seniorhouse ATTENDO

We were performing at Attendo seniorhouse many times. We have performed songs and plays.

Animal Shelter Onnentassu

We help cats by making them entertained. That's why we make them toys, so that they would have a more cozy home.

Onnentassu

is an animal shelter where you meet animals which have been abandoned by careless people. You can adopt them or help them. We made them toys.

Onnentassu is a place in Riihimäki where you can bring animals you find on the street abandoned

Also you can bring your pet to them and they can take care of him when you travel a way or go on a holiday.

Onnentassu rescues street pets. They also sterilize cats and they try to find new homes for abandoned animals.

Help for animals

Animals in different animal shelters need programme and activation. That's why we made them toys.
