8 When working together with the students from the other country these things proved to be difficult for me (multi-select)

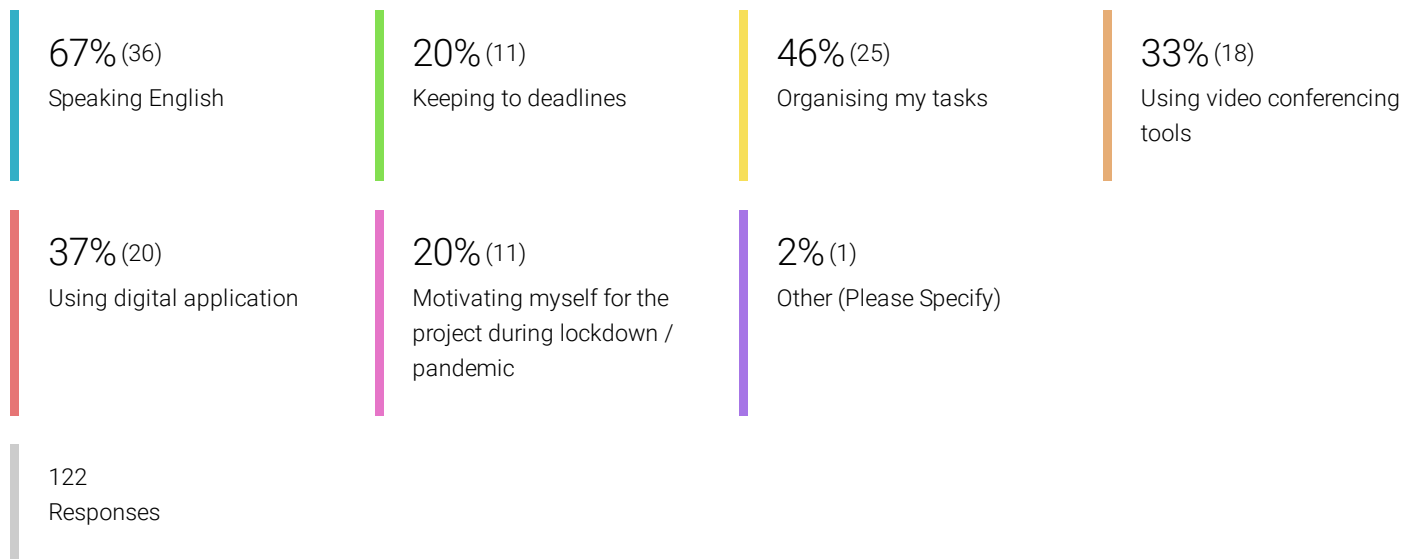

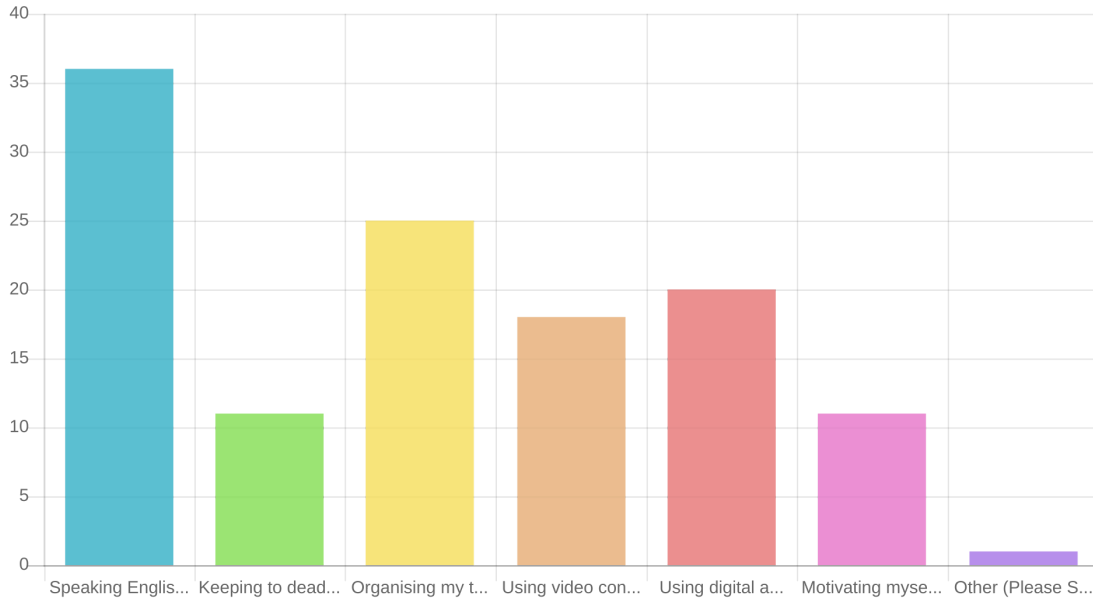

team work

The communication wasn't that good.

NOTHING

Remembering what group I was in

9 When working together with the students from the other country these things proved to be easy for me (multi-select)

NOTHING

10 Self-Evaluation: During the project, the most interesting for me was

Talking to spanish students

Talking to people from another country

meeting the other students online

.

meeting new people.

the saint james way.

...having variety in the tasks; ...communicating and working with other people

differences between german and spanish people

learning more about the saint james way and its background

meeting and speaking with people from another country (Spain) and encountering the differences in between the two cultures e.g. the working time for our patrtners was much more later in the evening than here in Germany.

to interact with the exchange students and get to know them.

the pizza

speaking to international students and get to know them better.

learning more about the Saint James Way.

speaking english

to learn about different cultures and the history of the saint james way

to get to know peaple from another country

the scape room.

At first working with students from another country, but it turned out to be more difficult than I expected. Learning about the Saint James way was also very interesting.

the scaperoom and the podcast

meet other students

Videoconference

The scape room

Talk with the other students

Actually getting to use my skills in english to properly communicate with the germans while doing the project, doesn't really have anything to do with the project itself, but at least it's something.

the interaction

talk with other students

Meet people from other countries

11 Self-Evaluation: In the course of the project, I found out that ...

There is more than only one way

My English is quite good

it is important to get to know yourself better and that the saint jacobs way helps a lot.

.

the spanish members aren't that communicative

in Spain, the English classes are very slow.

...I am actually better at speaking english then I thought; ...Working with students around the globe is easier than I thought

communication between different countries can be difficult

i have to visit spain some day

I enjoy meeting new people from different countries. I really liked to see that even when we do not speak the same mother tongue we can communicate with each other.

i am good at organizing tasks.

I am a sick person who needs to become president

the saint James way is not just hiking

the communication between the group members is very important.

other people also have problems to speak english or to tell me what their opinion is

i hate working with others

the saint james way is more than a pilgrim path

—

It is easy to cummunicate through apps

I can apply my english

we met other Students.

The internet didnt work

es viel zu arbeiten ist

the st james way passes Trier

I'm a good leader when I have to do a group project

Con gente que no habla español me siento más cómodo hablando inglés.

English is a very important language that helps us to make relationships all around the world and very interesting people.

working with groups in other countries is difficult and the difference in culture is important.

spanish and germans are differents in all ways.

I don't know

I'm better at speaking english than I thought

talking in english was easier than I thought

I'm better at speaking English than I thought

even if they talk another language, english has helped us to communicate with them.

germans are very hard-working

Germans are very exigent

I like speak with people out other countries.

we work more outside the High School.

THERE ARE DIFFERENT KIND OF PEOPLE IN THE WORLD AND ONE PERSON IS DIFFERENT TO EACH OTHER.

i can speak with people of other countries.

there's a lot more information about the Saint James Way that I didn't know.

we work more outside the High School.

Working in international teams is difficult, but it can also be fun.

I am more eficient when motivated

I don't kwow

videoconference too

the videoconference

Videoconference

I'm still not really good at dealing with group projects as always.

im not that bad at english

Speak more with the other students

St James Way has an interesting story

12 We all would have wanted to be able to travel and visit our partners, sadly it wasn't to be. Apart from these missed travel opportunities, how could the project have been improved (in face of lockdown / homeschooling / the pandemic)

More talking to the spanish

More video confernces

good!

seeing the landscape of the Saint James Way.

It would have been nice, if the video chats had worked better.

It would have been better if we would have visited some places around school that teach/show us a bit about the history of the St. James Way.

better communication

more contact with the spanish people

Maybe some more tasks which are designed for us to truly have to communicate with each other and which are not connected with notes and stress to hold on to a deadline.

fucking the hot guys?

It is too perfect too improve.

Talking more to our partners (something like the escape room)

The communication between the spanish and the german group.

we could have worked more with the I-Pads

that we could talk more with the spanish students

nothing to improve

—

It was good as it was

-

More interacting with the spanish people.

I don't know

andere Möglichkeiten

Video chatting

It was perfect

/

I don't know, I think that what we did is the best that could be done

Con más reuniones y videoconferencias con ellos, sólo para conversar.

more videocalls

I think that we did all what we could, so i think that the problem may be just bad luck.

talking more with germans, because we only have the opportunity to talk with them by videoconference two times .

Nice

It could have improved if we had talked more with the germans by videocall in class

We could have talked a lot more with the german people in class

We could've spoken more with the german students

It could have been improved talking more with them.

doing more videoconferences

It would have been great a better cooperation between the the two groups.

Travel to Germany and less jobs.

Can improve doing the activities all together in class.

IT CAN BE BETTER TO ACLAIRE THE TASKS BECAUSE THERE WASN'T ALWAYS CLEAR.

it could have been improved by doing less work and more video calls.

If we had chatted more with the other students.

The project have been improved doing more activities at High School.

With better communication between the team members.

it could have been more active

improve the digital technology

the project improved a lot

the comunication with the other partners

the communication

Dunno, perhaps it could have been possible to organize more video conference calls and maybe even expand on the social interaction between these students from both countries since to be honest we barely even interacted online apart from that Escape Room thing and the single low quality conference call we had, maybe encourage the students to just chat with the others or let someone form a WhatsApp group for the students from both nations to reside and chat in.

it would be so much better

speaking more with the other students

Doing more videoconferences

13 Self -Evaluation: I think, because of the project I

Now want to visit Spain

Now know something about the Saint James Way

learned a lot about the Saint James Way

.

gained a little bit confidence

know more about the Saint James Way.

...learned a few more things about working with foreign students

improved my speaking and writing skills (only a little)

realised the connection in Europe is very important

know a little bit more about the culture of the people in Spain.

wasted a lot of time :)

developed an awareness of different pizza tastes and gourmets.

Am very motivated to walk the Saint James Way

know more about the Saint James Way and I could improve my organisation skills.

feel now very comfortable to speak English

want to go to Spain

learned more about the Saint James Way

—

Improved my Organisation skills

became more confident speaking English

saw other Students.

Lost time

mehr Englisch gesprochen

Learned a lot about the st James way

learned a lot

can more confidently speak english.

Will be more participative in this ripe of projects

He podido mejorar mi speaking.

improved my english

I felt we were lucky to be in the project, but the situation ruined it.

had learnt a lot of the Saint James way but I would had prefered to know more about germans.

Would prefer to learn more about german students

have learned that I am more social than I thought

have learnt how german people work

can adapt myself to new situations better

can communicate better in english with foreigners.

can speak better whit other people

am the same, nothing has changed because of it, but I had pretty good experiences and I learnt new things

can organize myself better.

learnt to speak with less difficulties in English.

CHANGE MY MIND.

can organize more.

I learnt how to communicate better in English.

have learnt working in group.

learned many things about the Saint James way.

now can adapt to more difficult and uncommon situations

I don't know

learn a lot of things

learn a lot of things of the way of saint james

learn things I don't know before

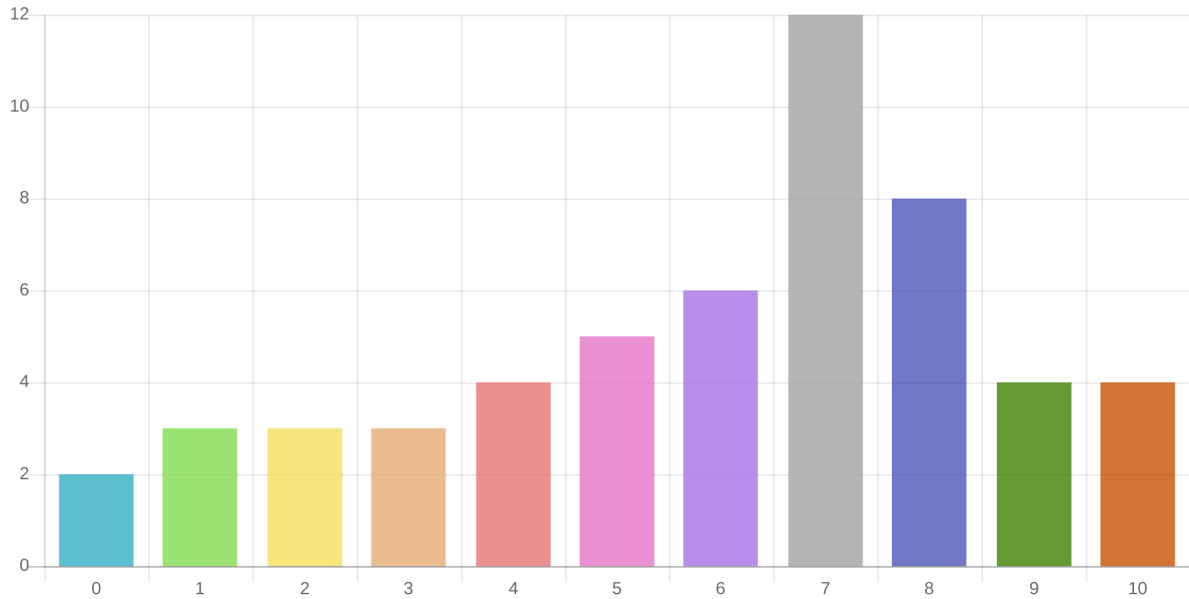

Learned what english-speaking german accents sound like.

improved my communication habilities

i don?t know

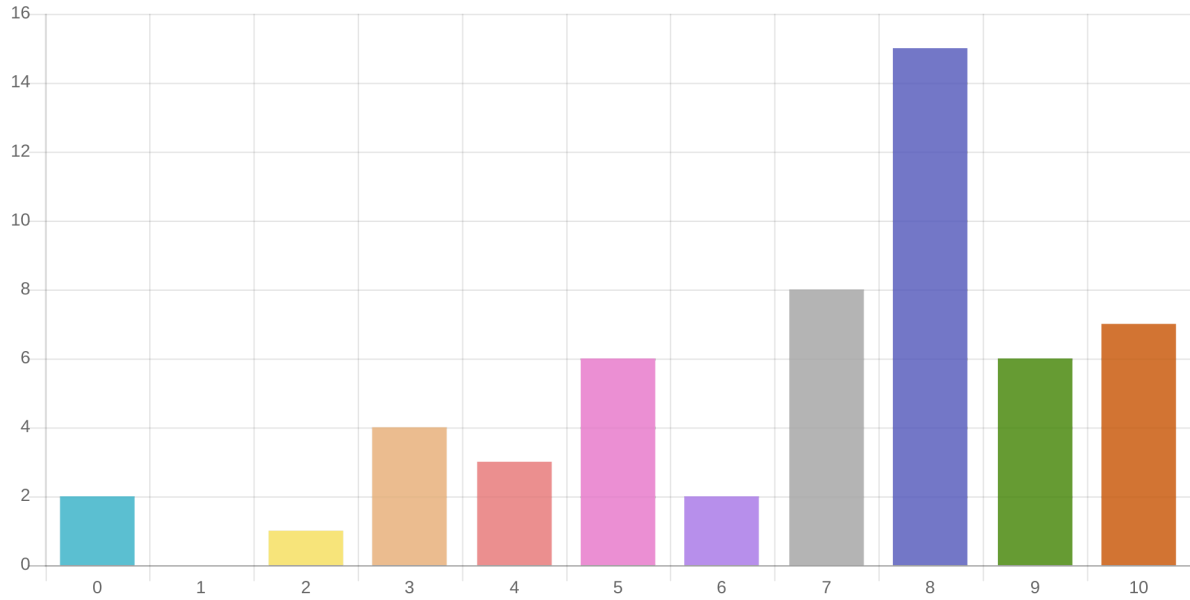

have learned cooperation

14 How likely do you think is it, that even if walking the Saint James Way as originally planned wasn't possible during the project, you will one day walk - even if only a bit - on the Saint James Way?
