

ERASMUS+

“Interactive ICT - based and web tools for an effective blended, flipped and cooperative learning”

TRAINING COURSE

17-21 July 2018, Brussels

OBJECTIVES

- 1) Become aware of key issues related to digital literacy in education
- 2) Reflect, discuss and review on blended, flipped and cooperative teaching and learning by integrating technology and web tools
- 3) Getting inspired by best practices on how ICT can enhance students motivation, participation, entrepreneurship and learning
- 4) Improve digital skills by working with a range of interesting tools, software and programmes for teaching and learning
- 5) Design and develop concrete teaching projects (multimedia contents, resources and blended lessons) to be applied in classroom.
