2. NETIQUETTE

[Subscribe](#)

Why do you think Netiquette is important and do you accept it?

Begu Erik - 21.01.2020 @ 08:09

I consider that Netiquette is a very important thing in projects, because if we respect other people and rules they will respect us. I respect Netiquette and I hope all the people would respect it.

[Buzu Alecu](#) - 21.01.2020 @ 08:49

The rules of netiquette are just as important in cyberspace as they are in the real world—and the evidence of poor netiquette can stick around to haunt you for much longer. We should follow these basic rules of netiquette.

[Tataroi Bianca](#) - 21.01.2020 @ 08:55

To my way of thinking Netiquette is a really important factor that sits at the basis of an international project because it helps the participants of the project to maintain good relations between them especially because it is a non-verbal communication and it prevents some unwanted conflicts because of some misunderstandings. Of course i agree and accept the Netiquette that is given.

It is important to use netiquette because communication online is non-verbal. Most often online communication consists of reading something someone else has typed. This type of communication does not allow each person to see facial expressions, body language, or hear intonation.

Rotaru Paula - 21.01.2020 @ 09:01

I believe that netiquette is very important in this international project, because we must respect each other, is important because online communication is typically non-verbal. This means that it is very easy to misinterpret what somebody else is saying.

Agatii Nina - 22.01.2020 @ 21:59

I think Netiquette has a very important role in online security especially in this international project! This rules also taught us that bullying is not allowed on this platform and we should be friendly with students from our country but also with those from other countries!
