

The Sun and its neighbours

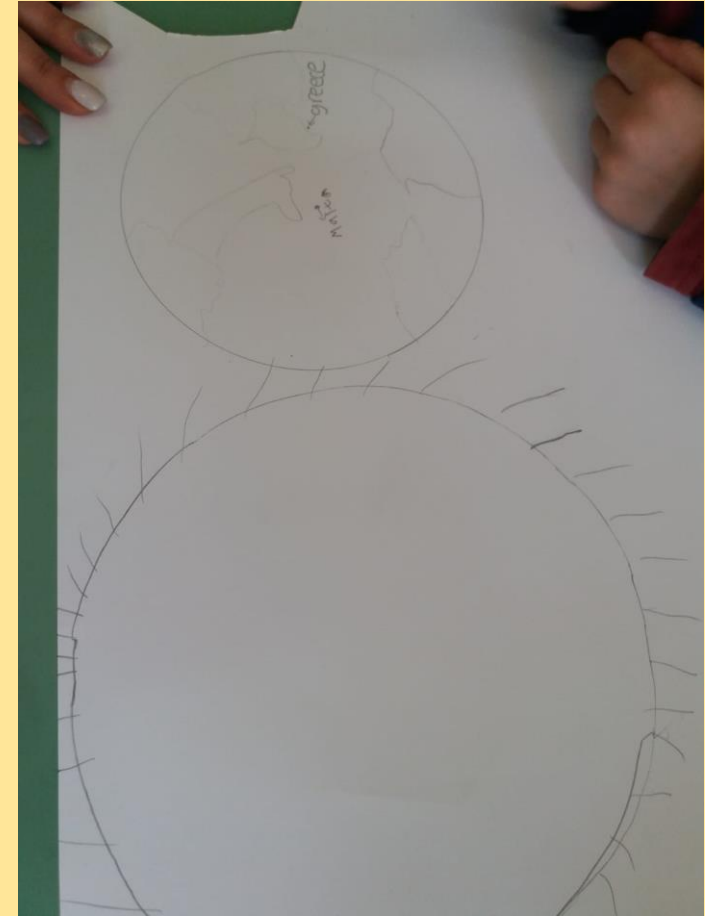

- The Earth goes round the sun, the earth goes round the sun...Matthias held the torch to replicate the sun...whilst Shaiel held the globe and went around the sun whilst turning the globe on itself.

- Exploring planet Earth. Moving the globe to track the movement of Malta through the year.

- Using a flash light to replicate the rays of the sun of planet Earth

- Drawing the moon, sun and earth using different sized objects found around the classroom

Colouring the sun,
the moon and planet
earth

Assembling the parts,
discussing, observing
and replicating the
movement of the moon
around Earth and in turn
Earth around the sun.

The final product secured by butterfly pins to allow rotation
