Panagiotis, Greece

Shaiel, Malta

Giorgos Ch, Greece

Matthias Malta

Stella, Greece

Konstantinos L. Greece

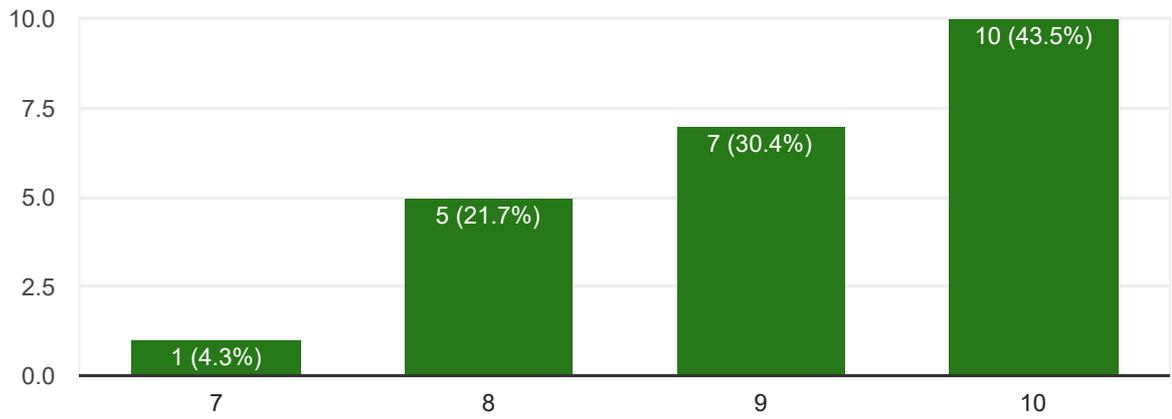

Pessephoni, Greece

Nikoleta, Greece

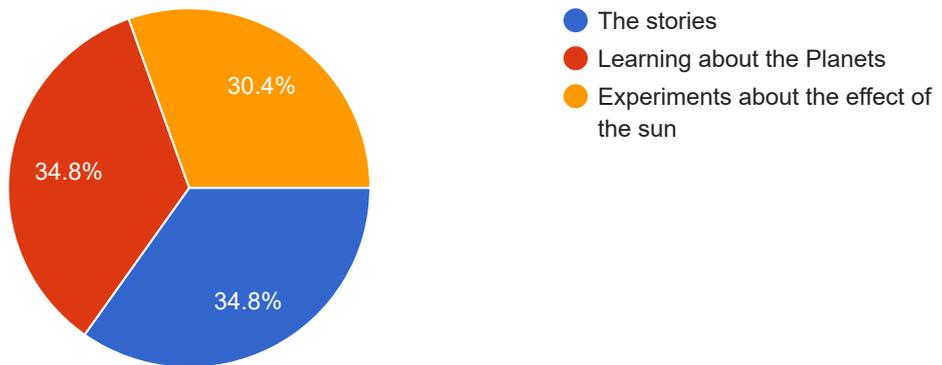

From a scale of 1 to 10 how interesting was this project? (1 is not interesting and 10 is super interesting)

23 responses

Which part did you find more interesting?

23 responses

### What is something new that you learnt in this project?

23 responses

I didn't know that Malta has it's own language, I thought their language was english.

One of the new things I have learned, is how the salt is produced.

how salt is made

I lernt about Mercury and Messenger.

greenhouse effect

What I learned is how nature works and how salt is made.

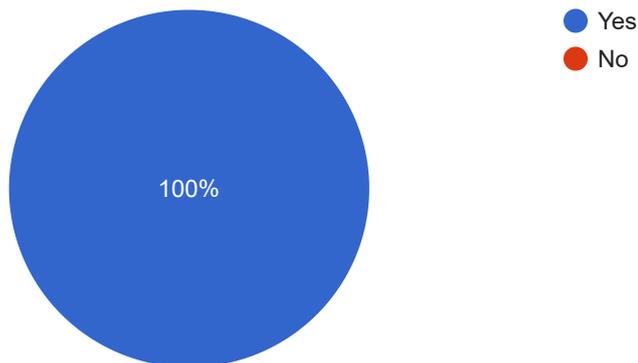

I learnt to do experiments.

I learned that salt is made from sea water when it's evaporated by the sun.

One of the new things I learned is how salt is made.

### Was it fun to work with students from a different country?

23 responses

Would you be interested in another e-twinning project with students from another country? Why?

23 responses

Yes, I would very much like to collaborate like with Malta, because that way you exchange many wonderful ideas.

Yew, because we learn things about other countries.

hear a different language and names

Yes, because it is very friendly. I would like very much to collaborate with other pupils from other countries.

yes because it was fun learning new languages

I liked that pupils are from another country and I learn things about their country.

Yes, I would, because it brings new adventures.

I would like to collaborate with children from other countries, because it's fun.

How do you feel about your participation in this project?

23 responses

I feel proud that I succeeded in doing something I really wanted to do. I also fell sad that the project is fifnished.

I feel great, because I have learned things I didn't know about space.

i love the sun

I feel joy because I helped my teams and I contributed.

Fun And Happy

Now that the project is over, I wont learn more about their country from them. So I feel sad.

I am very happy because I learnt to do experiments, something I didn't know how to do.

I feel amazing because I have learned many new things, for example that the sun is a
