I had breakfast and we walked to school to evaluate the activities we did during the trip to Satu Mare, as I said before, Zeppelin was really fun, everyone liked it, so it was the best rated activity. They gave certificates to the Spanish and Polish students, we rehearsed the flash mob and then had lunch again. We walked to the city centre and performed the flash mob together, we said good bye to the Polish students and their hosts and headed back to school to wait for the bus that took the Spanish delegation to Budapest back again. We arrived at Wombat's Hotel. Everything was stunning in Budapest, it was full of lights and shops everywhere and there was a really good environment. We left our stuff at the hotel and went sightseeing, we walked a lot, so we fell asleep really quickly.

Day 7 (Saturday 10th)

We had breakfast in the hotel, after that we spent all day walking around the city, watching lots of monuments and buildings and visiting shops. I took a lot of pictures of the city, we had lunch at a huge market full of people and we left after some angry security guy came to us with a stick and told us to leave in a rude way. After that the teachers gave us free time to go wherever we wanted so we watched some skateboarders and people in bikes do tricks in a square, we walked down a street for a bit, and we walked back to the square. We went to Pest - the mountain in Budapest. And we watched the beautiful landscape before we walked home, had dinner and slept in the Hotel.

Day 8 (Sunday 11th)

We had breakfast and walked around the city a bit more, then we took a bus to the airport, a plane from Budapest to Copenhagen and another plane from Copenhagen to Málaga. I ended up really tired of planes. Just exhausted in general but glad I was part of this awesome trip.
