

1. Autumn Memory and Numbers.

- Cut out paper leaves (one colour of the paper).
- Stick numbers 1-20 and word-numbers on the other side.
- Spread sets among children.
- Children play in pairs or in small groups

2. Pass the Corn Game

It's a good way of gymnastics and fun.

Divide the children into two teams (or as many as you need) and have them form two lines. You will need a cob of dried Indian corn for each team.

- At the signal "go", the corncob is to be passed from child to child. The catch is that they can use any part of their bodies, except their hands.
- If the corn touches the ground at any time, it must go back to the beginning of the line again.
- Whichever team manages to get the corn to the end of the line first wins the game.
- The corn can also be used in a relay, with the kids putting the corn between their knees, and racing "crab" style".

3. Pumpkin Rolling

Divide children into two or more teams.

Have a start line and turnaround line, 20 ft apart.

The first child in each line rolls a pumpkin from the start line, to the turn-around line and back.

The next person does the same, etc. The first team to have everyone play wins!

4. Win the Pumpkin (kindergarten)

Place children in a circle.

Start some music and pass a mini pumpkin from one person to another.

When the music stops-the person holding the pumpkin is out.

The last one left keeps the pumpkin!
