

Humorgruppen KAJ

KAJ

- They are 26 years old, live in Helsinki but are born in Ostrobothnia and are now working on their jubilee concert KAJ 10.
- Kevin mostly plays the guitar but also the keyboard. Axel plays the bass, the violin and the saxofon. Jakob plays the melodica, the guitar and is the lead singer. They like climbing and making films.

Gambämark

- Gambämark is their first musical which they performed at Wasa Teater. It was seen by 23 341 persons and became one of the biggest successes the theatre has had. It's about the fictive town "Gambämark" which closes itself behind a wall, they want everything to be as it was in the old days. The community was led by a strong leader and everybody else was forced to think the same way as the leader. The characters in the musical were inspired by real people they had met.

Vörjeans

- Vörjeans is their sideproject that they do for fun. It's a rockabilly band that loves Volvo and parties. No more, no less. Ride on!
- KAJ became a group when they wrote their first song and had their first gig. Before that they had been friends ever since high school and a little before.

- everything with an ambition to entertain or provoke thoughts. Everything where you express yourself creatively.

- Do you think that artists can promote democracy and sustainability in the society?
