

STUDENT VIEWS OF THE SDDS ERASMUS+ PROJECT AND MOBILITIES:

It was a wonderful experience getting to know a lot of great people, learning about different cultures and getting an insight into the everyday life of people in other European countries. It was very interesting to see their culture mirrored in their art and sights. It was a trip that we will never forget!

The trip of a lifetime! Being able to take part of the lives of people our own age living in another European country was both fun and educational . It's heartwarming to think of the fantastic people we met and the diverse experiences we had during the SDDS project.

I am so glad to have been part of this experience! It is a memory for life, and it was great fun to get acquainted with so many new people from the different corners of Europe!

Getting new friends for life from different countries was amazing! Working together on interesting topics and creating artwork connected with the project themes – democracy and sustainability – was really a rewarding experience . I am truly happy to have had the opportunity to take part of this project and if I had the chance I would do it all over again! It was truly a privilege to be able to take part of the every-day lives of people from another culture, getting to know people and places one would not have encountered had it not been for this project!

Erasmus-poem

From different corners of Europe we all joined in
To work on this project together – a real win-win
We got to know lovely new friends
And learnt how far the European spirit extends
Democracy and sustainability were in our common interest
Through teamwork we learnt what was best:
We have a lot in common – that is surely true
For these experiences we say our warmest Thank you!
