

OUR SCHOOL

Children in FEDAC Salt. Catalunya

Our Favorite Place in the School

Our favorite place in the school is Espai Emmaüs because it is a place that you can relax if you are stressed. Another of our favorite places is the Radio studio because it's interesting to learn about the radio. All the students love the playground because it's a little time that we can to play with our friends and have a lot of fun.

The places around the school

Around the school there are a lot of special places. Like the forest of the Deveses and the Pavello de Salt (sports center). We go to Deveses to celebrate something like the day of Mare de déu de Montserrat and we play on there.

We go to pavello to do physical education. It is very funny.

Sometimes we make an excursion and we go to wonderful places like museums and natural parks to get fun and learn.

The School

The name of the school is : Fedac Salt.
