

ANALYSIS OF A SPACE TO PLAY: PAULA MONTAL

IMPORTANT DATA:

1. Our park is situated between the streets: Carrer Dipuatció, Consell de Cent, Carrer Viladomat and Carrer Calàbria.

2. This is our real representation of the space.

3. To improve the park we propose easy changes:

a. Add two water founts.

b. Remove the graffiti's and clean the park.

c. In the other side of the basketball field, add a goal.

d. Reduce the cars and the pollution near the park.

e. Move the ping-pong table to another space of the park because, when we play, sometimes we have to pass through the basketball field to search the ball and it's dangerous.

f. To repair the shelf that is broken.

g. To put together the space of the sand to create a big space to play with it.

h. To add a vegetable patch (small garden) to take care of it and add more green spaces in the park.
