# TIPS AND LIFE HACKS FOR TRAVELING

*Here are some real advices written by Madara Stūra*

- *How to pack?*
- *What you should take with you on your trip?*
- *What you should you put in your suitcase?*
- *How to organize?*

**TO TRAVEL  
IS  
TO LIVE**

*Here are some good tips, that will make your trip easier and more comfortable.*

*The most important thing you have to remember - pack light!  
Before you pack your suitcase, make a list of things that you are going to take with you.*

## *Everyone should know*

If you bring some kind electronics, medical stuff, put them in your carry-on, sometimes the luggage can be lost and you definitely don't want to be left without stuff you need very much.

Also it would be good to put your tooth brush and an extra pair of underwear in your carry-on. That's just in case!

## *Have a nice trip!*

1.

Take only a half of the clothes you wrote on the list, because you won't be able to wear all of them. It will be a waste of space and you'll have to pay for your luggage in the airport. It's okay to wear the same T-shirt two or three days.

2.

Another good tip is not to fold your clothes when you put them in your suitcase. You can save some space by rolling them, in that way you can put some other stuff in your bag.

3.

Always take extra socks with you on the plane, because you can never know how cold it could be inside if the air conditioning is on. You should feel comfortable no matter where and when you're going.

4.

Drink a lot of water and stay hydrated on planes, especially on long-haul flights, makes it easier to get over a jet lag too.

*Don't rush into things you're not completely sure about.*

*Try to keep an open mind and be careful.*
