

From Home to school and back

How we go to school and how we go back home?

We collect all the answers and we draw a graphic. What can we observe? More students go walk or go by bus going home. Why do they use the car going to school?

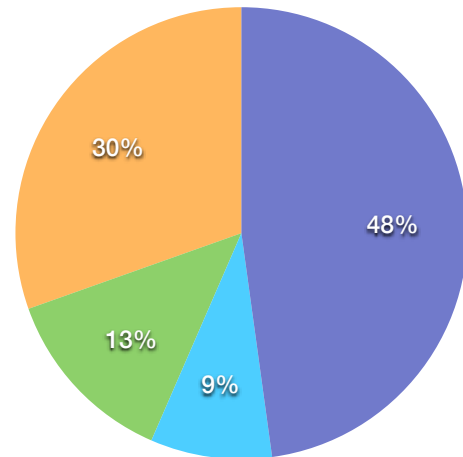

3rd class students

FROM HOME TO SCHOOL	NUMBER OF STUDENTS
Walk	8
Bike	2
Bus	1
Car	12

● Walk ● Bike ● Bus ● Car

BACK FROM SCHOOL	NUMBER OF STUDENTS
Walk	11
Bike	2
Bus	3
Car	7

A lot of 3rd class students still use the car to go to school but they go back more walking or by bus. It's good!
