

Coordinator's task

The partnership was managed and led by the Spanish school as coordinator institution. The coordinating person of SDGs Action! project, Fina Vendrell Vila, has been a motivating and inspiring leader. Her commitment has influenced the partners in the best possible way. From the very beginning she has demonstrated care for the partner school coordinators and teams. She has been communicating regularly with the group, making sure people know important meetings and due dates in advance. Online meetings were held monthly in order to discuss and agree upon the details and to ensure the achievement of the goals. She has been able to sum up the opinions of groups of partners and express them sharply and decisively. She has been thorough and put things in writing to avoid the pitfalls of forgetfulness.

Fina, the coordinator, possesses knowledge and enthusiasm and knows the latest information among SDGs and STEAM education, statistics, trends, programs and other educational and pedagogical issues related to this project. She has been responsible for monitoring actions and enrolled in international campaigns and projects and assured the active participation of each partner school.

Has persistence and patience and will has pushed ahead, particularly when things seemed to meet challenges. It was needed especially because of Covid 19 and the lock downs and planning and organizing the virtual and blended mobilities collaboratively with the hosting partners.

Fina Vendrell Vila has let partners know how they are progressing toward the group's goals and she has inspired others to achieve results by promoting the development of partner teachers' talents and recognizing the contributions of others.

Throughout the two years of the project, international cooperation was the key resource while assessing if the project objectives were met. Thanks to the enthusiastic partner cooperation and the talented, effective and outstanding leader-coordinator the project objectives were met extremely successfully.

Thank You, Fina!

It was an honour to work and cooperate over your leadership!

On behalf of the Finnish partners,

Raija Kärkkäinen
