

The SDGs action project was managed and led by the Catalan school as coordinator institution. Fina Vendrell Vila was in charge of this task.

She organized all the events in a very good and clear way. Although she has great competence for organizing tasks and events she is also the kind of person who can understand difficult situations and this was particularly relevant during the COVID pandemic we had to face.

Coordinator meetings took place on a monthly basis so that everybody could be aware of the activities planned, the difficulties. Moreover Fina never took a decision without asking all the project members their opinion. She did always her best to take into account all the members' opinions.

As a very experienced teacher, Fina possesses knowledge about pedagogical issues as well as the SDGs issues that were at the core of our project.

She has also been an inspiring and enthusiastic leader of each of the activities of the project. She helped us give our best for this project.

On behalf of the French team, I want to thank you so much for your involvement for kids and for a more sustainable world.

Cécile THOMAS
