RAFFAELLO:

This room is also used as a **meeting room** where some **activities** take place, for example last year we attended a "Work Safety Course" with a law teacher.

LABS :

We also have some labs, for example on the right you can see the “Chemistry lab” in which students make experiments and deepen some subjects like Chemistry, Biology, Science but also Physic.

THE LIBRARY :

Downstairs, on the ground floor, we have a huge library. Here the officers take care of every kind of books and lend them to all those who want.

Sometimes teachers go there with some students who need to improve some subjects.

THE GYM :

In the underground there is the gym, it is quite big and there we can play many kinds of sport.

Every class has two hours per week sport class; we usually play volleyball, football, basketball, someone plays table tennis and we also have a climbing-wall.
