

# Xylitol gum

## Xylitol is

- a sugar alcohol
- made of birch
- a natural sweetener
- healthy in many ways

Scientists at University of Turku researched xylitol and noticed, that it is good for teeth. In 1975 came worlds first xylitol gum, in Finland. It was called Jenkki. It was made by Huhtamäki Oy Hellas.

This is the chemical formula of xylitol.

**Xylitol is made of birch and that's why it is called birch sugar.**

Xylitol is healthy in many ways.

## Xylitol

- is good for your teeth
- preventing ear aches
- cleans your mouth

Xylitol crystals

**Finnish dentists  
recommend to use xy**

**SUOMEN  
HAMMASLÄÄKÄRILIITTO  
SUOSITTELEE  
KSYLITOLIA**

There are so many ways to eat xylitol.

- a natural sweetener
