

# CAROLINE SCHWINGL'S THOUGHTS

In her country lives two girls who are talking about discrimination and she agree with them.

She thinks that so much people don't understand how they can hurt someone when they say rude things.

In her opinion we live in a time where we shouldn't be put down because od any outward appearance or belief.

## PROBLEMS SHE WOULD TALK ABOUT:

discrimination based on colour  
discrimination based on religion  
discriminaton based on appearance
